

I got this from a other anti I follow so it kinda sounds the same

But yeah you guys think I choco is handling this "respectfully" when its farther from the truth, all they do is make up bullshit lies (the ask is not in any way shape or form "sexual harassment" choco is quite literally lying and I've explained it wasn't sexual, but y'all are ignorant asf to my explanations so), uses others to get what they want (instead of being the "mature" person they claim to be and dosent come to me cause I'm such an abuser 🙄🙄🙄🙄) and tries too hard to be offensive when they just come off as a pathetic bully tbh

let me make this clear

harassment is not

- saying mean things about someone
- wishing something bad things on someone

Harassment is

- Breaking boundaries
- making alts to stalk them and/or argue with them
- still giving them attention even when said person has told them to stop taking about them or interacting with them

All of these apply to choco

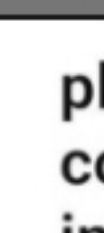

they broke my boundary of me not wanting to be called Caleb because it makes me uncomfortable

They made multiple alt accounts to not only pester my mutuals but myself but let others do the same and literally supports a blog called "I love bullying" or something, thats a clear indicator of enabling harassment

I told them that I don't want to engage in drama anymore yet here we are, doing the same petty shit they can easily stop with their following, but theyre so smooth brained that their way of coping is saying "I'm so cute and everyone loves me"

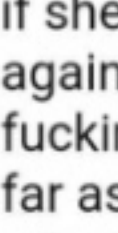

choco, you are not cute, your are not adorable, you are not even attractive in the slightest, you are not desirable in any context, you are ugly and disgusting, you are not anything positive you claim to be, and no, not everyone loves you, imagine being so insecure that everytime you look at your account you put "I'm so cute and everybody loves me" as a cringey affirmation you gaslit yourself into believing because you're scared that people will think otherwise,

and if its not the case, it's still extremely cringe inducing and not intimidating or threatening in the slightest if that was your inetion, it gives me second hand embarrassment that a grown ass adult thinks it's okay to describe themself in a child like way it feels like you're an age player jeez, and I wouldn't be surprised if youre an age player or defend loli/shota you're icon is literally a toddler that you are obsessed over

if she starts harassing me and other people again I MIGHT POTENTIALLY actually have to fucking press charges on this hoe and go as far as to leak and dox her addres and other private information if she doesn't stop, like I'm not fucking exaggerating this if she continues I'll fucking call the cops on her idgaf if she's 6 and I know I'll risk exposing my whole account (which is private no one knows abt it) but I'm not gonna stay quiet

... less

Harassed me by making up lies and telling your following to mass report me because I called you out on your behavior. This can also count as defamation.

I've come here to say...

I'm done, Moises

Go rot in hell with your cultists

It's where you all belong...

I'm not gonna give you anymore attention because you're a fucking attention seeking clout chasing manipulative lolcow who has a victim/god/and superiority complex who's entire reason for being on the internet is to talk about people and start drama and you wouldn't have an audience, a following, or even be remotely popular if it weren't for those facts, I came to Tumblr to talk about the owl house and to make fun of proshippers, we are not the same, and I won't hesitate to find your NSFW sideblog you mentioned having either

I'm not giving you any more attention to you or you're brainwashed cultists, also shut the fuck up constel I'm not gonna hear you whine and bitch and moan about how its "offensive" as if proshippers didn't call antis a cult, fuckass hypocrite jeeze some proshippers you are...

you and your cultists can harass me all you want, you can send people to make alt accounts to try and start arguments + do it yourself, you can make horribly made and biased google docs, you can brainwash more people into following your account and support a community who thinks sexual and predatory abuse is romantic, you can spread misinformation, you can enable all these problematic actions, I don't care, I know who I am, I don't need to tell people who clearly wouldn't care if I committed murder about my accomplishments and certainly not tell them about my self improvement journey, not everything needs to be put on the internet, and I've come to terms with doing that (ಠ_ಠ)

but just so you know...

I AM NOT APOLOGIZING UNTILL YOU AND YOUR CULTISTS DROP THE FUCKING VICTIM COMPLEX,

Harassed an innocent user by mocking their accent. Bonus points for this being racist too!

Shove a fucking cork in that trap of yours, omfg.
