Last word from me, Hunter/Dani

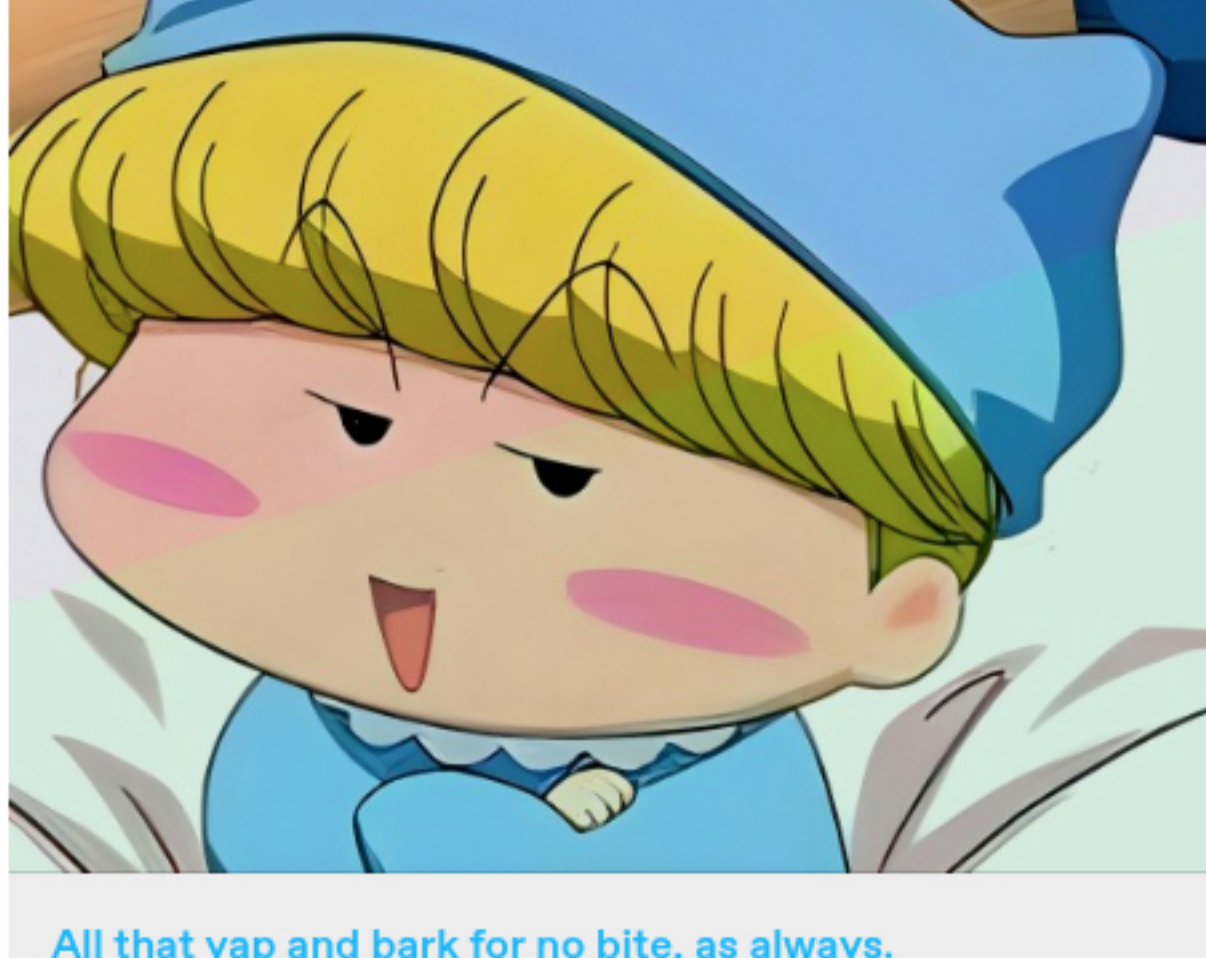

I really hope you fucking die Moises, if I'm being honest, I don't care if thats a death threat to hurt you're stupid little fucking feelings, you shouldn't care about this thats just how the internet is Moises, ike you said, you can't silence me, you can nuke my blog as many times, you can support someone who's harmed minors, spread illegal misinformation, and made fun of suicide, you can do all this problem shit and get away with it, but at the end of the day the world would be a better place without you alive, seriously

no, I don't apologize for anything, I don't care that I said I wish you would die or your family and friends should die either, I don't care that I said you should suck froggos dick and in return you turned that into me making fun of your face deformity when I didn't even know, I don't have any remorse for any hate or harassment you received because you deserve it, all of it

you deserved all that every hate anon and every piece of harassment and hate when I shared those screenshots even if they were not of any use anymore BECAUSE YOU DESERVE IT

I'll be back, I just need time to recover from your bullshit Moises

All that yap and bark for no bite, as always.

Caleb. Buddy. You're about as tough as a marshmallow. Telling me to die is weak as ahh. Boohoo. Sorry not Sorry your Timmy problems aren't anyone else's, see. Everyone else actually has important things to do, remember when you said people should send me unsolicited porn?

Timmy. I've seen mutilated bodies at age 12. Your TikTok ahhhh babbling? It's nothing.

No one's making fun of suicide but you sure are. Caleb. Many times. How's it feel to know that? Even with receipts from when I was getting sexually harassed, all you did was prove how desperate you are, how much of an attention seeking loser you are. How weak minded you are "that's just how the internet is" exactly, so, take your own words, and get off the internet, you aren't ready to be online, also, do you actually think saying my irl name, that's been in my pinned post all along, makes you tough? 🙄 You need to stfu, I know you wanted to be "intimidating" like you told people, but you're exactly as tough as a towel.

Nobody's silencing you, you have no voice to silence in the first place:

I can and will support. [@proship-froggo](#) as much as I want, and you, Caleb, are going to lose every single time, without effort on anyone's part, talking about minors while you suicide bait and made [@strawberry-fiz](#) suicidal? you're a flee, Caleb, and you know it. You're not a poor little minor, you're an internet random Timmy that constantly fucks around and continues to find out, just because it doesn't soothe your little fee-fees doesn't make it misinformation.

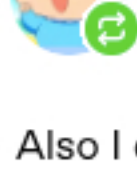

No one needs your apology in the first place, you're nobody. I dealt with worse insults in elementary already, you're just weak, and you did absolutely make fun of my

what your perpetually insecure, school-bullied self needs to project onto the world in order to pretend to be important to anyone, without putting any effort on anything in your easy as pie life

Go on, cry some more, crocodile tears, like in the videos of February remember? also, take as long as you like to return from your bullshit, Caleb, no, this. "harassment" of yours did nothing but make (1) you look worse and (2) constell look worse, who, by the way, also rendered your tantrum irrelevant. How's it feel, to be such a leech, for nothing in the end? besides, your cries don't mean anything, it's a projection of your fee fees you think you'll make anyone else's, sorry to break it to you, but, I just got more followers after your harassment, and let me be so very clear: you've never, and never will be, a threat to anyone, all you can be is an annoyance, and as we've seen, it always ends up with consequences you rightfully earned, you wanna come back? you'll get terminated again, and so on and so forth, now go cry some more to the few people who still choose to sympathize with your nothingburger of a privileged life you parade in the face of everyone else with actual issues, other minors, who are and always will be a billion times more resilient, more intelligent, and stronger you'll ever be, as you bring nothing to the table for anyone other than only caring about yourself, and everyone you try leech off rightfully holds you accountable and ignored you, because unlike you, the rest of us have intrinsic value as people.

You can wish I die all you like, and like any other you there ever was, you can, and will, have to sit, cope, and do absolutely nothing but what you always do, fuck around and find out then cry wolf to be saved, only to get banned again.

friendly reminder. If you're telling somebody to go die because of ship discourse, thats a you problem. If you're seriously that pressed about someones shipping preferences, you need psychological help.
